ASSIGNMENT

WHEREAS, new and useful improvements and inventions have been made by the undersigned in

MAMMALIAN TRANSGENESIS BY
INTRACYTOPLASMIC SPERM INJECTION

and are the subject of the two below-identified provisional patent applications filed in the United States Patent and Trademark Office (and a regular patent application claiming the benefit thereof that has been prepared for filing in the United States and in the Patent Cooperation Treaty) and executed by the undersigned on the date indicated below in the appropriate space to the right of the signature of the undersigned, which applications are further identified as Jones, Day, Reavis & Pogue Docket No. 265036-600070;

WHEREAS, the University of Hawai'i, having a principal place of business at 2800 Woodlawn Drive, Suite 280, Honolulu, Hawai'i 96822, hereinafter referred to as "assignee", is desirous of acquiring all right, title, and interest throughout the world in, to, and under said improvements and inventions and patent rights therefor, including the U.S. Provisional Patent Application Serial No. 60/096,078, filed August 11, 1998, entitled "Novel Method of Mouse Transgenesis by Intracytoplasmic Sperm Injection", the U.S. Provisional Patent Application Serial No. 60/133,970, filed May 13, 1999, entitled "Mammalian Transgenesis by Intracytoplasmic Sperm Injection", and any regular patent application claiming the benefit thereof filed in the United States and throughout the world;

NOW, THEREFORE, be it known that, for valuable consideration, the receipt and sufficiency of which are hereby acknowledged, all right, title, and interest in the United States and throughout the world, in, to, and under said improvements and inventions and all patents, patent applications, patent rights, and inventor's certificates thereof, therefor, and therein, including, without limitation, said U.S. provisional patent applications, and said application for patent prepared for filing in the United States and the Patent Cooperation Treaty that claims the benefit of the provisional patent applications, and all divisions and continuations thereof, all patents which may be granted thereon, all reissues and extensions thereof, all right to sue for past infringement thereunder, all patents which may be granted to said improvements and inventions by states or nations other than the United States, or by other authority, entity, or organization, and all applications therefor, have been and are hereby sold, assigned, transferred, and delivered unto assignee, its successors and assigns; and it is covenanted and agreed by the undersigned, and for executors, administrators, and legal representatives of the undersigned, that at assignee's request any and all applications, affidavits, assignments, and other instruments will be made, executed, and delivered as may be necessary or desirable to secure for or vest in assignee, its successors, or assigns any improvement, inventions, right, title, interest, application, patent, patent right, or other right or property covered by this assignment, and the United States Commissioner of Patents and Trademarks is hereby requested and authorized to issue any and all United States patents granted on any of said applications to assignee as owner of the entire right,

title, and interest in, to, and under the same, and appropriately empowered officials of foreign countries are hereby authorized to issue any letters patent granted on any of said applications to assignee as owner of the entire right, title, and interest in, to, and under the same.
